Advanced English

Work Experience

Content Creator and Web Designer   1 Year

Edifize Creative Solutions

During my tenure at Edifize Creative Solutions from February 2024, I contributed substantially. Initially, I created graphics for websites and social media, and over four months, I developed UI/UX for two websites using HTML, CSS, JavaScript and some. My work greatly enhanced the company's online presence and user experience, contributing to our success.

Interests

Swimming   Travelling   Web Designing

Projects

Main Page for Edifize Creative Solutions

I designed the front-end UI of Edifize Creative Solutions' main website, focusing on a client-specified file structure. Utilizing HTML, CSS, and JavaScript, I crafted a user-friendly and visually appealing interface.

Technologies Used: HTML, CSS, JavaScript

To visit the page: www.edifize.lk

Main Page for iCryptify

I crafted the front-end UI for iCryptify's main website, a key project by Edifize Creative Solutions. Adhering to client-specified file structures, I utilized HTML, CSS, and JavaScript to create an intuitive and visually engaging user interface. To view the website, please click the button below.

Technologies Used: HTML, CSS, JavaScript

To visit the page: www.icryptify.com

Personal Portfolio Website

Explore my portfolio website, designed in FIGMA and developed using HTML, CSS, JavaScript, and Bootstrap in Visual Studio Code. It's a reflection of my expertise in web design and development.

Technologies Used: Figma, HTML, CSS, JavaScript, Bootstrap(MDB)
